

Anglo/Brazilian
Northern Mato Grosso Expedition 1967/69

FLORA OF MATO GROSSO

No. R. 509

Lafoersia paccari St. Hil

Vernacular name: Mangaba Braba

7 km SW of Xavantina ($52^{\circ} 20' W - 14^{\circ} 44' S$).

Shrub, 1.5 m tall. Barks detaching
in papery scales.

Growing in cerrado with trees to 8 m.

The vernacular name refers to the
resemblance of the plant to Mangaba (Hancornia
speciosa)

Date: 27.8.1967
