

Anglo/Brazilian
Northern Mato Grosso Expedition 1967/69

FLORA OF MATO GROSSO

No. R. 58

Mimosa conferta Benth.

16.5 km. N. of Xavantina on Xavantina
— Cachimbo road.

Shrub 3 m tall, little branched. Fl.
heads pink. Growing on edge of road
in cerrado formation — the species is very
common in this type of habitat, presumably
having weedy tendencies.

Date: 8.7.1967
