

Anglo/Brazilian
Northern Mato Grosso Expedition 1967/69

FLORA OF MATO GROSSO

No. R. 1338

Banisteriopsis megaphylla (Tuss.)

Córego de Porco, 240 km. N. of Xavantina on
Xavantina-São Felix road. ^{Gates}

Shrub, 1.5 m tall. Petals pale pink;
fruit wings pinkish.

Growing on a raised mound ('island')
in grassy campo.

This shrub would probably begin climbing
if it came into contact with
another shrub or tree.

Date: 7.5.1968
