

FLORA OF MATO GROSSO

No. R. 1406 var. ananassoides

Ananas ananassoides (Baker)

L.B. Smith

Near the Rio Suia-Missu Ferry (approx.
290 km N of Xavantina).

Ground Bromeliad in low scrub
(to 4-5 m tall) close to the river.

This scrub is not a normal
Cerrado formation and perhaps should
be called Carrascal.

Date: 12.5.1968

Coll.: J. A. Ratter

Det.: DP.

R. R. de Santos, R. Souza & A. Ferreira
