

FLORA OF MATO GROSSO

No. R. 1532

Cochlospermum regium Sv. Wal.

Vernacular names: Algodão Brabo, Algodão do Campo.
Lagoa de Leo, 8 km. SW of the Base Camp of
the Expedition (Base Camp $12^{\circ}54'S-51^{\circ}52'W$,
c. 270 km. N. of Xavantina).

Shrub, 1.5 m tall. Petals bright yellow.
Most shoots are leafless.

Growing on mound covered in cerrado
vegetation, surrounded by grassy camps.

This is a virgin area and the species
Date: 25.5.1968 is not semi-weedy here as it
seems to be in some places.

Coll.: J. A. Ratter, Det.: HH Poppo and 12 dc.
