

Anglo/Brazilian
Northern Mato Grosso Expedition 1967/69

FLORA OF MATO GROSSO

No. R. 2077

Antonia ovata Pohl.

Close to the Base Camp of the Expedition.
(Base Camp $12^{\circ} 54'S.$ - $51^{\circ} 52' W$, c. 270 km. N.
of Xavantina on the Xavantina - São Felix road).

Vernacular name: Feijão da Arara.

Small shrub; 80 cm tall.

In cerrado on sandy soil.

This species attains 10 m in height in
Date: 4.7.1968 cerrado and here it has presumably
been dwarfed by the habitat.

Coll.: J.A. Ratter, A. Ferreira, Det.:

R.A. de Castro & Andrelinho.
