

FLORA OF BRAZIL

State of GOIÁS

No. R. 2406

Tacaranda cuspidifolia Mast. ex DC.
About 10km E of PIRANHAS, GOIÁS.
(Approx. 16°30'S - 51°50'W).

Tree, 7 m tall.

Growing in fringe of cerrado
on the margin of Semideciduous
forest in a valley. The forest
contains Macaúba (Acrocomia sclerocarpa)
and Babacú (Orbignya) and seems
to be the classical 'MATA DA PRIMEIRA CLASSE'
of Goiás.

Date. 13-9-72

Coll.: J.A. RATTER, S.G. DA FONSECA & R.A. DE CASTRO
