

FLORA OF BRAZIL

Federal District

No. R. 6477 Det. D.C. Zappi iii/1993

Faramea cyanea Muell. Arg.

IBGE Reserva do Roncador, Córrego Monjó.

In dense gallery forest on a slope with fairly well-drained soil.

Slender trunked, very erect tree, 13cm dbh, c. 8m tall. Bark grey, deeply fissured below to give almost a multi-fluted pattern at the base of the trunk. Growth form spruce-like. Corollas waxy cream with a tint of purple above, greenish below. Tree no. 843 of Manoel Claudio's survey.

Date: 4.10.1990

Coll.: J.A. Ratter & Paulo Cesar Mendes Ramos.
